

How Spiritual Communities Can Benefit From Our 'Extraordinary You' Program

Progressive, 21st Century relevant churches and religious organizations have consistently taught that there is a higher, more transcendent quality within us that is the Core essence of who we are. Spiritual leaders, world teachers, and mystics alike have referred to this Essence as our innate Divine Beingness, our True Self, our Christ Self, our Buddha Self, our Krishna Self, our Eternal Self.

Our professional specialty is inspiring truth seekers to connect with this Core Essence. We do this by complementing the teachings that religious and spiritual organizations are already providing their respective memberships.

What Makes Our Program Different?

We focus on what neuroscientists call the “Deeper Self” and positive psychologists refer to as the “Positive-Oriented Self.” Science is now proving what spirituality has always known. We underwrite these cutting edge scientific perspectives with legitimate, transformational New Thought spiritual teachings that are known and accepted by many of the world’s faith traditions.

It is our belief that these “selves” are in all of us and are the brilliant, wise, and positive qualities that help us automatically default to a more optimistic stance as we face work and life challenges.

What we’re good at – what we’re really good at – is helping people connect with their deeper, more optimistic selves so they can handle any challenges they may encounter and feel more positive, rational, and in control as they meet those challenges.

Even corporate America is beginning to wake up! A growing number of companies (IBM, Medtronic, Service Master, BioGenex, Boeing, Apple, Microsoft,

Google, Yahoo, Cisco – and yes, The American Stock exchange) are taking impressive steps to help their employees, at all levels, get in touch with their exceptional qualities.

Your 7 Core Abilities

The latest research has shown when you have connected with your Extraordinary Self, your Authentic Self, your Divine Core Essence, you share these seven Core Qualities with others who have made that life-changing connection:

Our program covers these seven qualities in detail and follows that up with a **seven-step process that helps you connect with your Extraordinary Self**. By developing these qualities – which are already within each of us – anyone can create the lives they want and master their human experience one thought, one word, and one action at a time.

People who have already gotten in touch with their ‘Deeper Selves,’ their Divine Nature, are living prosperous lives – lives filled with happiness, inner peace, and joy.

As ordained Unity ministers — and work and life enrichment consultants — our forte is helping Truth seekers connect with their Extraordinary Selves so they can both transform their lives and support their spiritual communities with their time, talents, and extraordinary abilities. That is our calling! That is our privilege!
